

**ENGINEERING
COLLEGE**

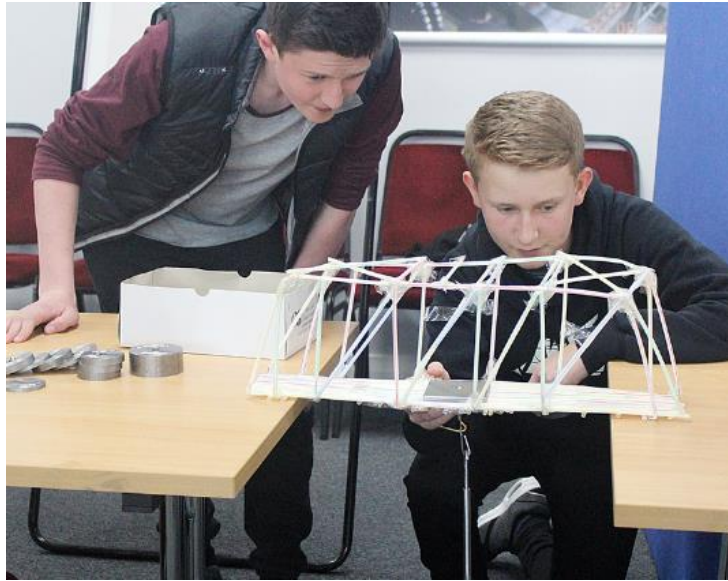

The Mosslands School works in partnership with The Engineering College, Monksferry, Birkenhead to offer two Engineering qualifications.

Students can opt for either a one-year Level 2 City and Guilds Diploma in Engineering or a two-year Level 3 BTEC National Diploma in Engineering. The staff and tutors at the college work hard developing programmes that deliver an alternative curriculum of specialist engineering sector vocational training to students, giving them vital, hands-on experience across a variety of practical disciplines.

Click on the following link to find out about the team who deliver the courses:

<https://www.theengineeringcollege.co.uk/meet-the-team/>

Students will get a taste of machining, fitting, an electrical taster and broader awareness about working in engineering, engineering calculations and principles and health and safety awareness. Courses are delivered during normal school hours and are designed to feed into various apprenticeship and traineeship programmes.

For further information about these courses please see the attached PowerPoint or contact Mrs Danher at The Mosslands School on 0151 638 8131 or at cheryldanher@mosslands.wirral.sch.uk
