

History of Mathematics Homework

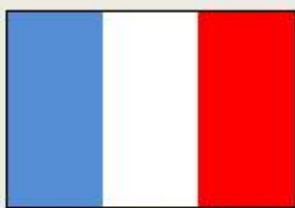

You will need to research the history of mathematics by country. For each country, you must include ...

... a brief introduction

- Where is the country?
- What is the population and GDP?
- Any interesting facts?

... how this country has contributed to modern mathematics.

- Did any famous mathematicians come from this country?
- What mathematical discoveries were made there?

France

UK

Egypt

Greece

Germany

USA

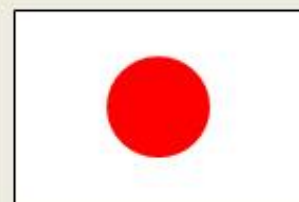

China

Italy

India

Japan
