

Virtual STE@M Week Day 4 - Challenge 4

You are to drop a food item from a height of approximately 2 metres. This can be a fresh egg, a digestive biscuit (or equivalent) or a soft piece of fruit. Your challenge is to create a design to hold the food item as it drops and protect it from damage upon impact.

Remember to email your photos to social@mosslands.wirral.sch.uk or tweet them to [@MosslandsSchool](https://twitter.com/MosslandsSchool)

Good luck!
