## **Maths Support Session for Year 9 & 10 Parents - 10<sup>th</sup> February 2022**

Dear Parent/Carer

I am offering an after school session on 10<sup>th</sup> February 2022 from 4pm – 5:30pm, which will demonstrate the ways in which we teach maths and how your son learns in our lessons.

This session will develop your own understanding of maths, in order to support your son with his maths work. I am aware, from numerous conversations with a variety of parents, that there is a fear of showing your son ‘the wrong way’ how to solve a particular type of mathematical problem and this session will aim to tackle that. By showing you different strategies of learning and teaching maths, as well as using the concrete manipulatives that we use in most of our maths lessons, I hope that you will come away from the session feeling much more confident in helping your son with his maths homework.

This session will have a maximum capacity of 15 people and will be offered on a first come first served basis;

however, we will also allow parents to join online via Zoom and if you need support on how to use this software then please let me know via email at **[jennapurcell@mosslands.wirral.sch.uk](mailto:jennapurcell@mosslands.wirral.sch.uk)**

Please return the attached reply slip or email me by 4<sup>th</sup> February 2022 to confirm your attendance.

Kind regards

Miss J Purcell  
Teacher of Mathematics
